DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Sumikawa et al.

Sumikawa et al., U.S. Patent No. 6587353, discloses a device, which as shown in Figure 1, has a wiring layer 2&6 formed on a substrate 1 with terminal electrodes 8 coupled to the wiring layer. As explained in column 8, at line 43, the terminal electrodes 8 are disposed based on a stress distribution that works on the substrate.

Allowable Subject Matter

Claims 2 – 14 are allowed.

Response to Arguments

Applicant's arguments filed 12/22/05 have been fully considered but they are not persuasive.

The Applicant argues that Sumikawa does not disclose or suggest terminal electrodes that are disposed on a substrate at locations of the substrate based on a

stress distribution that works on the substrate. This is not persuasive as Sumikawa does teach external electrodes places on a semiconductor substrate and wired to the on chip electrodes in a manner that reduces stress. Figure 1 of Sumikawa shows the placement of the electrodes 8 and the stress 12 acting on the substrate.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
